

Alwyn Oilfield's 21st Birthday celebrations

Fyvie Castle, Aberdeen - June 2008

To celebrate the 21st birthday of the Alwyn Oilfield, we supported our client with various audio visual elements for this special anniversary event. Sound and Vision created a full wide screen watchout presentation which incorporated bespoke animations and graphics as the backdrops to the live band sets on stage. Live camera relay was projected onto the large screen using top of the range Panasonic projectors to capture images of those on stage, for ease of audience viewing. In a magnificent marquee in the grounds of Fyvie Castle, guests enjoyed a fantastic evening.

"Many thanks for the fantastic support and hard work your team put into our event. The professionalism and easy manner of the team made delivering the event so much easier. Please pass on my thanks to the guys and I look forward to working with you all soon..."
