

Northsound Radio Awards

Aberdeen 2008

The Awards were established to recognise those for their outstanding contribution to the local community of Aberdeen and the surrounding county. The unsung heroes awarded for their achievements and inspiration. This event was sponsored by Bibby Offshore.

Sound and Vision provided the vast star cloth to help transform the stage area into a glitzy set suitable for such a celebration. Two large screens with live camera relay allowed the audience to see the on stage proceedings along with a fantastic quality sound system to support the live bands, presenters and guest speakers.

We helped show call the event with our expert technicians and professionally delivered the live video footage onto the screens whilst alternating between the awards presentation content.

“...thank you and the team for all your help...I have worked with a number of AV companies and I can safely say that you were the most professional, organised and chilled out - a good quality!...”
