

## Any one for (table) tennis?!

18th Commonwealth Table Tennis Championships  
Glasgow - May 2009

Spectators at the 18th Commonwealth Table Tennis Championships in Glasgow were treated to 7 days of tremendous competition in May plus vibrant match content on a central, circular STEALTH LED screen provided by Sound and Vision.

This was a first for the Championships which have historically shown match information on plasma and projection screens and excitingly for Sound and Vision, the first live sport event that we have supported in such a way.

Perfect even in a well lit environment, STEALTH was suspended over the middle of play in the main sports hall at Scotstoun Sports Campus to give spectators a colourful and dynamic information display. This included match time tables, scores, sponsor logos, and competitors' flags.

STEALTH also provided a vivid backdrop for the opening, closing and award ceremonies and displayed both live camera and action replay to enhance the spectator experience.

*"...I wanted to take this opportunity...to thank you for the level of services you provided in respect of Screen Supply and Screen Content for the 18th Commonwealth Table Tennis Championships at Scotstoun Leisure Centre. There is no doubt that the design and content of the Stealth screen contributed greatly to the event.*

*I was impressed by your team's willingness to go beyond the original remit and it was obvious that your overriding aim was to ensure the success of the event.*

*It was a pleasure to work with you and your crew and I am confident that we will work together on future events in Glasgow."*
